

Paediatrics and Child Health Technology Conference 2026

Abstract Submission Categories

1. **Inclusion and involvement of children, young people and families**
 - Patient and public involvement and engagement
 - Co-design and co-production
 - Dissemination and public awareness
 - Equality, diversity and inclusion
2. **Decentralised healthcare and self-management**
 - Wearables and remote monitoring
 - Telehealth and virtual consultations
 - Virtual wards
 - Electronic patient records
 - E-prescribing
 - Healthcare management systems
3. **Medical devices**
 - Active implantable devices
 - In-vitro diagnostics

Sensor technology
Virtual and augmented reality
Medical imaging and diagnostics
Assistive technology
3D printing

4. Data, artificial intelligence and robotics

Artificial intelligence and machine learning
Robotics
Data and health informatics

5. Regulation, adoption and commercialisation

Networks and collaborations
Health economics
Regulations
Procurement
Implementation and adoption

6. Sustainability and net zero

7. Other
